To Whom It May Concern,

In 2009, the 111<sup>th</sup> Congress of the United States voted into law the American Recovery and Reinvestment Act (ARRA). Stipulated within this legislation is that all of the iron, steel and manufactured goods used in the construction, alteration, maintenance, or repair of a public building or public work are to be produced in the United States for the project to qualify for ARRA funding.

The law further stipulates that there is no regard to the origin of components or subcomponents in manufactured goods, as long as the manufacture of the goods occurs in the United States.

All asphalt saturated underlayments provided by Warrior Roofing Manufacturing are manufactured either in our Tuscaloosa, AL, or Chambersburg, PA, facility. With that being the case, they are all compliant with ARRA requirements.

Regards,

Steven F. Crew
